

# SAMUEL NEEDS OUR HELP

Samuel is 3 years old and is battling Neuroblastoma Stage 4. That is a high-risk cancer that stems from the nervous system. He has had six rounds of chemotherapy and has had 70 percent of the tumor removed from his abdomen. He has had a high dose of chemo and now has his own stem cells back and he just finished his stay of two months at Duke for radiation therapy. His next step is six months of immune therapy.

## BOAT RAFFLE TO RAISE FUNDS!

### 2011 Model 14' Tyndall Skiff with Trailer

On December 4<sup>th</sup> I was reading the County Compass paper and the article on Youngster battles disease caught my eye and heart, and I thought “How could I help?” So this year my wife and I decided rather than buy unneeded presents, we would put the money in fiberglass. I’m building a boat and donating 100% of proceeds to Samuel.
